

# Welcome to the Molina Healthcare Lunch and Learn: Apple Health Expansion

# Apple Health Expansion Background

- Legislature directed the Health Care Authority (HCA) to implement a new program to provide health care coverage equivalent to Apple Health Medicaid to uninsured adults who are ineligible for other federal programs due to their immigration status.
- In 2022, the legislature provided operational funding to the HCA for implementation and carry forward of the Apple Health Expansion program.

# Eligibility Criteria

- **WA residents aged 19 or older**
  - With countable income under 138% of the Federal Poverty Level (FPL) **and**
  - Do not qualify for other Apple Health (Medicaid) programs based on immigration status\* **and**
  - Are not pregnant or did not have a pregnancy end in the last 12 months **and**
  - Are not eligible for qualified health plans with advance premium tax credits or federally funded medical assistance programs.

## Who is uninsured in Washington?

- 25% of the 410,000 uninsured people are undocumented in Washington.

■ US-born Citizen ■ Naturalized Citizen ■ Legal Immigrant ■ Undocumented Immigrant

# Apple Health Expansion

## Coming July 1, 2024

- HCA plans to enroll up to 13,000 individuals into Apple Health Expansion. Eligible groups will be transitioned into the program first, and then clients applying for Apple Health Expansion will be enrolled until the enrollment cap has been met.
- At 8 a.m. on June 20<sup>th</sup>, HCA will begin enrolling members into Apple Health Expansion until the cap is met. During this enrollment period, people should complete or update their online applications.
- Qualified Health Plan (QHP) enrollees who are eligible for Apple Health Expansion will transition into Apple Health Expansion. Those enrollees determined eligible, have received notification from Washington Healthplanfinder regarding the transition.
- Clients enrolled in Alien Emergency Medical (AEM) will transition to Apple Health Expansion starting July 1, 2024.

# Application Pathways: Ages 19-64

- Online at [wahealthplanfinder.org](http://wahealthplanfinder.org)
- Download WA Planfinder mobile app
- Phone 1-855-923-4633
- Paper application
- In person through HBE navigator

The screenshot shows the Washington Health Plan Finder website. At the top, there is a navigation bar with 'Home', 'En Español', and a search bar containing 'E.g. Renew coverage'. The Washington Health Plan Finder logo is prominently displayed. Below the logo, there are links for 'HEALTH COVERAGE', 'MY ACCOUNT', 'TOOLS AND RESOURCES', and 'ABOUT US'. A notification banner states: 'Special enrollment is available to those who qualify for Cascade Care Savings. Get more information.' The main content area features a central panel titled 'What would you like to do today?' with buttons for 'Apply Now', 'Renew Your Coverage', 'Sign In to Your Account', 'Free or Low-Cost Apple Health', 'Health Care Options for Immigrants', 'Browse and Compare Plans', 'Frequently Asked Questions', and 'Make a Payment'. To the right, there is a section titled 'Already Receiving Apple Health?' with a sub-header 'Health Care Is Self Care' and a 'Get Support' button. A photo of a smiling man holding a tablet is also visible.

# Application Pathways: Age 65+

- Online at [washingtonconnection.org](http://washingtonconnection.org)
- Phone 1-877-501-2233
- Paper application
- In-person at DSHS Community Services
- DSHS manually processes the applications

The screenshot shows the Washington Connection website homepage. At the top, there is a green header with the Washington state map logo and the text "WASHINGTON CONNECTION your link to services". To the right is the state seal. Below the header is a navigation bar with "Login", "Create Account", and "About This Site" buttons. A language selector shows "English | Español". The main content area starts with a "Welcome" message and a "Navigation Tutorial" link. A paragraph describes the services offered, including Food, Cash, Child Care, Long-Term Care, and Medicare Savings Programs, and mentions that individuals aged 65 or older can apply for medical assistance. Another paragraph describes "Washington Healthplanfinder" for children, parents, pregnant women, and adults aged 18 to 64. Below this are three orange buttons: "See If I Qualify", "Apply Now", and "Find Services". A dropdown menu is open under "I would like to ...", listing options like "See if I qualify", "Apply Now", "Renew my benefits", "Report a change", "Complete my mid-certification review", "Find services", "How do I ...", and "Community partner resources". To the right of the dropdown is a photo of a man and a child on a beach. At the bottom, there is a footer with links for "Register to Vote", "Contact us", "Report Welfare Fraud", "Privacy", "Feedback", "FAQs", "Customer Survey", and "Community Partner Survey", along with the copyright notice "Copyright © 2024 State of Washington".

# Program Policies

- HCA intends to use the same procedures as Medicaid, including eligibility, enrollment and redetermination/renewals.
  - No retroactive eligibility for Apple Health Expansion
  - No resource/asset limit
- Enrollees will be able to choose from one of four MCOs offering Apple Health Expansion Plans:
  - Molina Healthcare of Washington
  - UnitedHealthcare Community Plan
  - Community Health Plan of Washington
  - Coordinated Care

<https://www.hca.wa.gov/assets/free-or-low-cost/apple-health-expansion-immigrant-health-webinar-may-2024.pdf>

# General Principles

- **Mirroring Apple Health requirements**
  - Apple Health Expansion is designed to mirror to the extent possible the services provided to individuals enrolled in Apple Health (Medicaid) managed care
  - Same “medically necessary” definition applies (WAC 182-500-0070)\*
  - Same requirements for second opinion, self-referral, in-country and in/out-of-state rules

<https://www.hca.wa.gov/free-or-low-cost-health-care/i-need-medical-dental-or-vision-care/apple-health-expansion>

# General Principles

- **Other state agency services:** Services delegated to other agencies for Apple Health (Medicaid) are generally **not available** (unfunded) in the Apple Health Expansion program, including but not limited to:
  - Intermediate Care Facility
  - Private Duty Nursing
  - Behavioral Rehabilitative Services
  - Personal Care
  - Targeted Case Management
- **Waiver services are not available, including:**
  - 1115 demonstration waivers including Medicaid Transformation (e.g., Re-entry & Health Relates Social Needs services)
  - 1915c Home and Community Based Services
  - 1915b Behavioral Health Services Only
  - 1915k Community First Choice

- To find out what drugs are ASO drugs using the Code Lookup tool, select Medicaid LOB and enter the CPT/HCPCS by visiting <https://www.molinahealthcare.com/members/wa/en-us/health-care-professionals/home.aspx>

The screenshot shows a web-based form for a Code Lookup tool. It features three dropdown menus at the top: 'State' (set to Washington), 'Health Plan Benefit' (set to Molina Healthcare of Washing), and 'LOB' (set to Medicaid). Below these is a text input field for 'CPT / HCPCS Code' and a blue 'Lookup' button. The 'LOB' dropdown menu is open, displaying a list of options: Medicare, Medicaid (which is highlighted in blue), and Marketplace.

- Under the Notes section, ASO drugs will have a note of **"Carve out to HCA for Apple Health Expansion members only"**

# Culturally Sensitive Care: Apple Health Expansion

# Cultural Humility – What is it?

- A personal lifelong commitment to self-evaluation and self-critique whereby the individual not only learns about another's culture, but one starts with an examination of her/his own beliefs and cultural identities
- Recognition of power dynamics and imbalances, a desire to fix those power imbalances and to develop partnerships with people and groups who advocate for others
- Institutional accountability

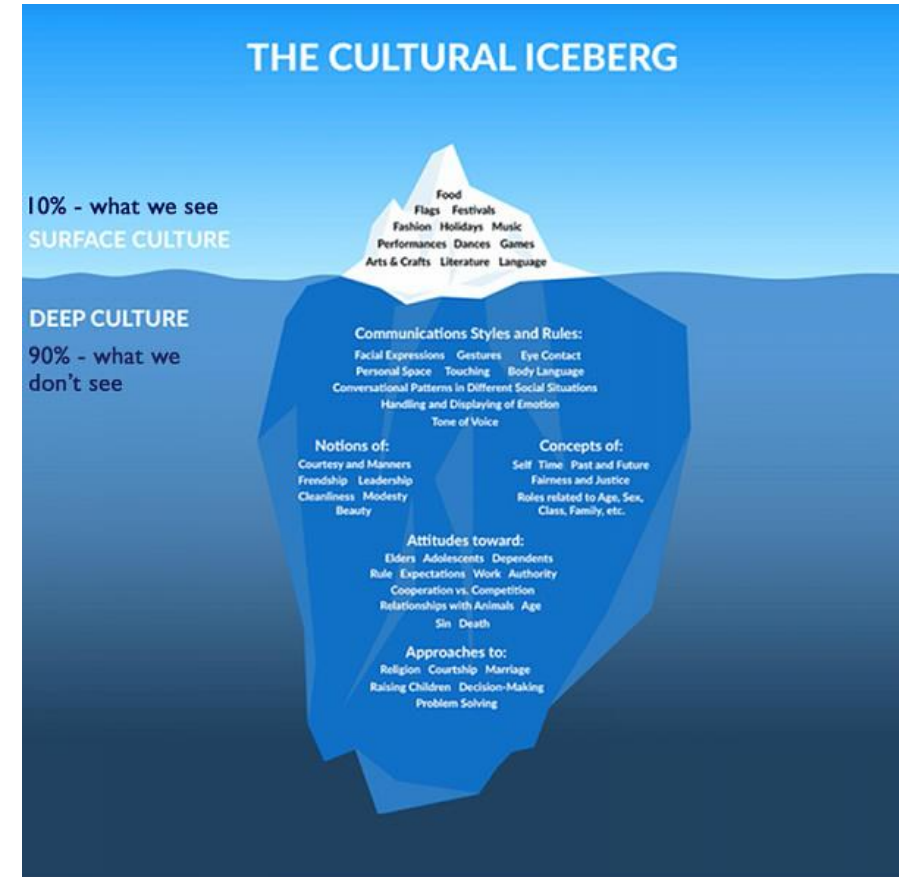

# Cultural Humility, Cultural Competency and Culturally Sensitive?

- Cultural competence is the ability to interact effectively with people of various cultural, racial, ethnic, socioeconomic, religious and social groups.
- Cultural Competence is often tackled by learning about the patterns of behavior, beliefs, language, values, and customs of particular groups.
- Cultural humility is a lifelong process, where the person being cared for is the expert in their own culture.
- Cultural humility requires ongoing self-reflection, and a willingness to be vulnerable and know that you do not have all of the answers – and that is okay.

**Culturally sensitive care is an approach to health care delivery that recognizes and respects the unique cultural background of each patient. It acknowledges the impact of culture on a person's beliefs, values, customs, and lifestyle. This kind of care is based on the belief that individuals have different ideas about what constitutes proper medical care and are best served when they can draw upon their own cultural traditions while receiving treatment.**

# Culturally Sensitive : Key Attributes

- Openness
- Self-Reflection/Awareness
- Lifelong learning
- Institutional accountability
- Empathy and compassion
- To be “other-oriented”
- Acknowledging Power Imbalances and Balancing power imbalances

# Apple Health Expansion: Member Perspectives

# Apple Health Expansion: Unique Experiences and Perspectives

## Migration and Displacement Experiences:

- 1. Country of Origin** Pre-migration experiences occur in the country of origin, where the health of refugees and migrants may be shaped by various political, social and environmental factors. These may include climate change, disaster, war, conflict and persecution, poverty and lack of economic opportunity, and existing healthcare practices. Lived experiences will also shape experiences, including chronic hardship, daily stressors, potentially traumatic events and the distribution of illnesses that may be commonly found in that country.
- 2. Countries of Transit** Refugees and migrants may be exposed to unhealthy living conditions and may experience disrupted provision of medications, both for existing and for new illnesses. Further, some refugees and migrants may have physical injuries and may experience being trafficked or traumatic/stressful events during transit.
- 3. Country (or place) of Destination** Factors include socioeconomic challenges arising from settlement, integration and, sometimes, a precarious legal status; the ability to access health-care services for ongoing care or new conditions; and the impacts of other experiences, including physical injuries, traumatic or stressful events, chronic hardship and discrimination in the post-migration phase.

# Apple Health Expansion: Social Determinants of Health

1. Migration is a fundamental social determinant of health for refugees and migrants.
2. Access to health care and the health status of most refugees and migrants are affected by a combination of social, cultural, legal and economic factors.

Examples:

Member level: Refugees and migrants may experience cultural and linguistic barriers to communication, which limit their access to health information and care

Community level: Refugees and migrants may experience discrimination and stigma in the host community, including by the local health workforce.

# Apple Health Expansion: Trauma Informed Care

Refugees and migrants often experience an accumulation of chronic hardship, daily stressors, significant losses, and potentially traumatic events in their countries of origin or destination, as well as during transit.

As health care providers it is important to remember:

- These experiences may include gender-based violence, assault, trafficking, and other highly distressing events, which may result in stress-related symptoms, including feelings of sadness, helplessness, fear, or horror; all of these can impact a person's ability to cope
- Being sensitive to the impacts of the difficult experiences faced by some refugees and migrants and being trained in providing quality, evidence-informed psychological interventions where appropriate

# Apple Health Expansion: Culturally Sensitive Care

Culturally sensitive care is respectful of a person's cultural, religious, and linguistic needs and pays attention to the immense diversity within refugee and migrant populations.

- Engaging a bicultural or bilingual health workforce;
- Using universally agreed signage whenever possible, as well as visuals and other displays that are culturally appropriate;
- Factoring in cultural and religious considerations when addressing people's accommodation and nutritional and spiritual needs;
- Using people's personal models of understanding psychological distress and their preferences for health-seeking as a foundation for developing care;
- Considering people's preference for gender concordance with clinicians or with language and communication aids where possible;
- Developing cultural protocols and displaying them in waiting areas, consulting rooms, and pre-admission documentation; and using translated resources that are appropriate to people's health literacy and cultural needs.

## CULTURAL HUMILITY AND CULTURAL COMPETENCY

Gain insights into how cultural competencies and cultural humility influence health services across diverse professional and social groups by participating in this series of two virtual workshops led by Dr. Ileana Ponce-Gonzalez.

**ATTENDEES WILL:**

- Interpret their comprehension of cultural diversity by identifying and describing key cultural characteristics that impact care.
- Define and differentiate between the concepts of culture, cultural awareness, and cultural competence, and explain their relevance in healthcare.
- Identify the role of cultural competence and how it benefits the healthcare workforce.
- Apply cultural humility in public health practice.
- Acquire key skills and capacities needed to work effectively with diverse populations.
- Demonstrate role-playing and case discussions to practice developing strategies for reducing health disparities.
